Geo-Location Suite

Powerful Location-Based Solutions for Mobile Coupons & Promotions

Allow consumers to see 10 closest redemption points

With the FunMobility Geo Location Suite, you can add powerful location based capabilities to your mobile promotions. Give your retail locations the capability to reactivate clipped coupons and promotions when your customers are within walking distance. Provide your customers a opportunity to check-in on their mobile device and let their friends know where they choose to shop.

LOCATION FINDER

Easily integrate any retail location to let your customers find your business on their mobile device.

LOCATION ANALYTICS

Gain insights into how and where your coupons convert from discovery to redemption with funnel reporting.

EAGLE EYE VIEW

See a live map and gain valuable insights into where and when customers are engaging with your coupons and promotions.
